

Readers Around the Globe Treasure the Spiritual Teachings in Namaste Publishing's New Book, *Treasure Forest*, by Cat Bordhi.

From Mumbai, India:

"I understand *The Power of Now* teachings more deeply after having read *Treasure Forest*! This is me saying this who is a *The Power of Now* believer and has been close to the teachings through the book and being in Eckhart's presence from time to time. The irony is that the story had to be written in the easy format of the children teaching the parents, for the parents reading to actually understand the message and in turn teach it back to their kids in day-to-day life. Brilliant!" – Nikki Sachdeva, Yogii Impressions Books Pvt. Ltd, Foreign Rights Publisher

From Chicago, USA:

"*The Power of Now* by Eckhart Tolle opened many people to their inner place of Peace by showing them how to turn off their minds. Namaste Publishing's latest book, *Treasure Forest*, will enchant children and adults alike. There is no greater gift than PEACE, and *Treasure Forest*, with its teachings of our inner place, of peace is the gift." – Catherine Chiesa, grandmother

From Vancouver, Canada:

Every now and then a novel of such caliber and inspiration comes along, that the wisdom and ever-present jewel of nature can be passed from generation to generation. Cat Bordhi's *Treasure Forest* is such a book. It will help adults re-discover their own childhood; something they might have long lost and forgotten. Every parent should read it to their children. It is like a teaching without 'teaching': you are left to find the treasure hidden between the living words, the treasure that can only be found within your inner intelligence and stillness." – Mada Dalian, Healer

From Moscow, Russia:

"I've translated *The Power of Now* into Russian to give its magic deepness for myself as well as for my friends without being asked to, just listening to the will of my heart. Now I work that way to translate *Treasure Forest*. From the very beginning of this book I caught a feeling that I'm IN, just like *The Power of Now*. Everything appears so natural and alive that I feel a causeless joy inside of myself." – Nikolay Lavrentiev

From San Francisco, USA:

"An enthralling and mysterious tale for children of all ages, *Treasure Forest* is also a gentle though profound spiritual teaching which guides us to the hidden treasure at the bottom of our own deepest being. I finished it and began reading it again immediately." – V. Ritchie, manager of Inner Light Bookstore

From Chicago, USA:

"I find that after I put *TREASURE FOREST* down, I couldn't wait to pick it up again and find what adventure awaited Ben and Sara. The spiritual principles offered through Ben and Sara's experiences are truly magical. When Ben was taught the meaning of surrender by the muddy swamp I was filled with joy in knowing this story will be available to children all over the world. It surely isn't limited to the youth though. Thank you, Cat, so much, for being the avenue through which Ben, Sara, and all the *TREASURE FOREST* characters can spread truth so beautifully." – Charlie Wilkins, father
